All-Season Covers

ecosmart Fire

This accessory is designed to custom-fit our outdoor products and effortlessly protect your product with simple adaptation of installation as you transition through the seasons.

All-Season Covers

Design Features

1. High-Performance Fabric

Constructed from 600D Oxford fabric, known for its strength and durability, ensuring long-lasting use.

Breathable

The PTFE breathable membrane allows moisture to escape, preventing condensation while maintaining the cover's structural integrity.

Quick-Dry

Incorporates 75D knitting fabric for quick-dry performance, so your cover stays ready and effective, adapting seamlessly to varying weather conditions.

Waterproof and Weather-Resistant

Protect your fire feature with a fully waterproof cover, designed to keep it dry and in top condition regardless of the weather.

UV and Fade-Resistant

Our covers are treated with a UV-resistant coating to safeguard against the sun's harsh rays, ensuring your fireplace continues to look as good as new.

2. Prevents Water Pooling

Innovative PVC cones support the cover to prevent water pooling, keeping it secure and functional during heavy rain.

Glass Fire Screen Compatible

Thoughtfully designed to accommodate models with a Glass Fire Screen, offering versatility without compromising on fit or protecting.

3. Stays Secure

A practical elastic cord at the bottom ensures the cover remains secure and in place, even in strong winds.

Built for Tough Conditions

These covers are made to handle extreme weather—from hot summers to cold winters – ensuring year-round protection.
